

III. Listing of Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

1. (Currently Amended) A portable terminal device which can be carried by a user comprising: an input unit which can input life data including a user's food intake contents; a data storage unit which readably stores basic data including said life data; and a display unit which displays the data, and said input unit, when inputting said food intake contents, sets a pattern to suit the user's dietary habits and classifies fixed unites for each food to enable selection thereof.
2. (Currently Amended) A portable terminal device according to claim 1, further comprising ~~wherein said portable terminal device has~~ a measuring unit which can measure a user's in-vivo substance to obtain biological data, and said basic data includes said biological data and said life data.
3. (Currently Amended) A portable terminal device according to claim 1 ~~either one of claim 1 and claim 2~~, wherein said data storage unit is removably provided with respect to said portable terminal device.
4. (Currently Amended) A portable terminal device according to claim 1, further comprising ~~any one of claim 1 through claim 3, wherein~~ a data transfer unit which transfers data between the outside and said portable terminal device ~~is provided in said portable terminal device.~~
5. (Currently Amended) A portable terminal device according to claim 2 ~~any one of claim 2 through claim 4~~, wherein said biological data includes measurement time point data showing a measurement time point when said in-vivo substance is measured by said measuring unit.
6. (Currently Amended) A portable terminal device according to claim 2 ~~any one of claim 2 through claim 5~~, wherein said measuring unit ~~in said portable terminal device~~ is an in-vivo substance measuring apparatus which is detachably and data transferably connected to the main body of said portable terminal device ~~main body.~~

7. (Currently Amended) A portable terminal device according to claim 4 ~~any one of claim 1 through claim 6~~, wherein said display unit, and said input unit, and/or said ~~or~~ data transfer unit in said portable terminal device use a display unit and an input unit or a communication unit of a portable telephone which is detachably and data transferably connected to the main body of said portable terminal device ~~main body~~.

8. (Currently Amended) A portable terminal device according to claim 1 ~~any one of claim 1 through claim 7~~, wherein said input unit ~~which inputs said food intake contents~~, previously sets a food intake pattern according to special conditions and a pattern based on lifestyle habits of different meals ~~breakfast, lunch, and dinner~~, so as to suit the user's dietary habits, and classifies said fixed units for each food into levels such as large quantity, medium quantity, and small quantity, to enable selection thereof.

9. (Currently Amended) A portable terminal device according to claim 1 ~~any one of claim 1 through claim 8~~, wherein said basic data includes exercise data showing a user's exercise quantity.

10. (Currently Amended) A portable terminal device according to claim 9 ~~any one of claim 1 through claim 9~~, further comprising an exercise quantity measuring apparatus ~~which is formed integrally with said portable terminal device or separately from said portable terminal device, and measures said~~ for measuring the exercise quantity of a user carrying said device so as to obtain a part or all of the exercise data.

11. (Currently Amended) A portable terminal device according to claim 9 ~~any one of claim 1 through claim 10~~, wherein a part or all of said specified exercise data is input from said input unit.

12. (Currently Amended) A portable terminal device according to claim 1, ~~any one of claim 1 through claim 11~~, wherein said portable terminal device comprises further comprising a clinical data creating section which creates clinical data based on said basic data.

13. (Original) A portable terminal device according to claim 12, wherein said clinical data creating section creates a table showing a causal relation with food intake, and graphs the data corresponding to clinical analysis.

14. (Original) A portable terminal device according to claim 11, wherein said clinical data creating section creates an acceptable intake on the day, based on a difference between a limited calorific intake per day and ingested calories on the day.

15. (Currently Amended) A portable terminal device according to claim 1, ~~any one of claim 1 through claim 14, wherein said portable terminal device comprises~~ further comprising a source material creating section which creates source material having the accumulated basic data or clinical data statistically processed.

Cancel Claims 16 - 29.
